WORK EXPERIENCE

Senior Artist @ Red Nucleus

August 2018 – Current

- Develop graphics and other visual assets for digital and print-based learning solutions for pharmaceutical, biotech, and medical device companies
- Collaborate with a group of individuals with diverse skills – project managers, medical writers, instructional designers, programmers, and medical editors – to ensure content is engaging, accurate, and meets client needs
- Participated in an internal E-learning games revamp initiative for UNIFY GameLab to modernize appearance, accommodate responsive layouts, and provide mobile gaming support and compatibility for multiple game-based products

Artist @ Entrepreneurial Game Studio (EGS)

March 2016 – June 2017

- Coordinated with a team to produce an educational Minecraft mod directed towards children with hemophilia
- Researched a child-centered design methodology, submitted a research proposal, and assisted data collection
- Aided the development and execution of a curriculum used to teach students computer science through game design

Art Director @ Aquarius Games LLC

April 2015 – June 2017 | Games Released: Chubby Guppy

- Directed aesthetic design decisions of a 4 person student start-up that develops mobile games for Android and IOS devices
- Constructed vector art assets and animations for in-game and promotional use
- Presented company progress and design development during reoccurring status meetings and represented Chubby Guppy during pitch competitions
